Additional Information / Specifications

All assignments are to be submitted through Google Classroom.

Students are to be responsible for their success in this course by keeping track of the deadlines and evaluation criteria for each assignment or project.

Assignments handed in late with no valid justification will be penalized (10% per day).

All students are required to complete their own assignments. Students who knowingly duplicate and submit for evaluation work belonging to another student are subject to significant penalties (loss of marks and notification to parents). This policy applies to both the donor and the recipient of the assignment.

Students who feel they are having difficulty keeping pace with the assignment deadlines should contact the teacher as soon as possible. A course of action can then be devised to permit the student to successfully complete the work.
