Additional Information

Work saved on the computers is not secure. Please backup all work online.

Assignment completion dates must be respected. Additional time (outside of regular class time) will be required to complete assignments. Late assignments will lose 10% each day they are late. If an assignment has not been received five days after the deadline, it will receive a zero. This penalty is at the discretion of the teacher.

Students who feel they are having difficulty keeping pace with the assignment deadlines should contact the teacher as soon as possible. A course of action can then be devised to permit the student to successfully complete the work.
